

EYESUN[®]
MEDICAL OPTICS

HAVING YOUR TRUST

Company Profile :

Eyesun Teb Co. was founded in 2011 , holding standards and certifications from Iran’s Ministry of Health.. it is certified by ISO 13485: 2012 and ISO9001: 2015. As a manufacturer of surgical ophthalmic products, it has manufactured products such as injector and cartridge - closed design(similar to Alcon model) and open design (similar to Medical) applicable for inserting all kinds of hydrophobic and hydrophilic IOLs, Iris retractor (hooks), Perfluorodecaline fluid, Endo-illumination fiber optic (20 & 23 gauges) for all kinds of vitrectomy devices, eye spear sponge, vitrectomy lenses, and SF6 Gas. On the other hand, it also produces brain pad used for Neurosurgery and Beauty sponges for removing cosmetics from the eye.

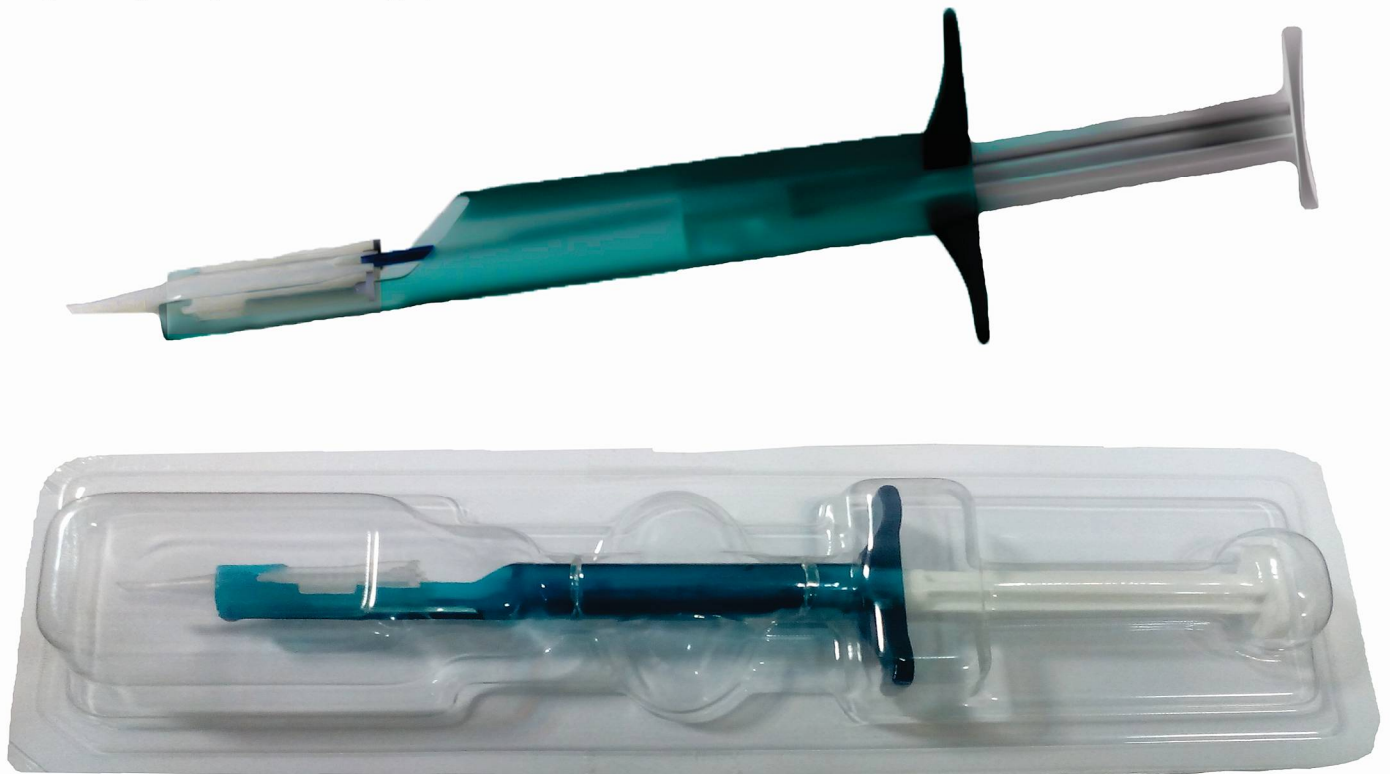

Eyesun Teb Co . which is a science - based company has emerged from the heart of Iran - Tehran and now is located at Pardis Technology Park under presidential observatory department.

Eyesun Teb is in full collaboration with its sister company Aria Negah Viera which implements on sales, importation and exportation of manufactures of Eyesun Teb Co. Aria Negah Viera Co. has already co-operated with Omesis from Turkey, Aktive from Italy, Bross Medical GmbH from Germany, HP Braem AG from Switzerland and Arcad from France. However, it aims to expand its international co-operation with its partners in other countries all around the globe and share its unique high tech with companies which are in need of those products.

Over the last five years, Eyesun Teb was striving to develop its injection systems to make the ophthalmic surgery safer. Eyesun Teb products especially its injection systems have contributed magnificently to the development of microsurgical techniques. Eyesun Teb is proud to be among the few companies which have achieved the technology of manufacturing such ophthalmic surgical products. Furthermore, Eyesun Teb Co. is honored to be the only manufacturer of Injector and Cartridge in Iran.

Intraocular lens injection system and cartridge: Having great quality used for all types of hydrophilic and hydrophobic IOLs in sizes of 2.4mm, 2.8mm, and 3.2 mm provided in different designs like closed (ALCON) along with single use, preloaded, Butterfly (Medicel design).

Eyesunject (closed design)

	Size 2.2 mm	Size 2.8 mm	Size 3.2 mm
Hydrophilic power	0 - 25	0 - 34	0-34
Hydrophobic power	0 - 18	0 - 25	0 -34

*E*ye sun ject makes eye surgery safer. Simpler and more effective and keeps the incision as small as possible which has always been our target. Over the last five years, Eyesun ject have significantly contributed on the development of microsurgical technique. Particularly in the realm of lens injection system Eyesun ject has set new benchmark.

Suitable for :	Size 2.8 mm	Size 3.2 mm
Hydrophobic power	0 - 25	0 -34

The Butterfly injector and cartridge system (Sunject, packed, sterilized) represents yet another advancement for safe and effective micro-incision cataract surgery. Not only the surgeons but also the theater nurses can do the loading of the lens easily and smoothly. The unique design of this injector and cartridge ensures the accurate positioning of the lens and therefore lead into a secure and precise position for a perfect lens delivery into the eye. Lens insertion is gentle and even without the lens wedging or twisting. Sunject guarantees a gradual controlled release, and consequently a correct positioning in the eye. Sunject provides maximum safety with remarkably improved efficiency.

The lens can be loaded quickly and precisely via guiding rails. Sunject single-use injector-sets with or without loading unit come sterile packed in dispenser boxes of 10 sets.

	Size 2.2 mm	Size 2.8 mm	Size 3.2 mm
Hydrophilic power	0 - 34	0 - 34	0-34
Hydrophobic power	0 - 18	0 - 25	0 -34

MULTI EYESUN JECT Injectors - The titanium & stainless steel advantage

The reusable MULTIJECT injectors are precision engineered from high-grade titanium and steel using high quality manufacturing techniques. MULTIJECT injectors are available as Syringe-Type and Screw-Type version. Both models come with a GROOVE-TYPE injector head and injector head to receive the silicone cushion and Syringe-type Injector

	Size 2.2 mm	Size 2.8 mm	Size 3.2 mm
Hydrophilic power	0 - 34	0 - 34	0-34
Hydrophobic power	0 - 20	0 - 25	0 -34

Preloaded ject screw - the SMOOTH way

Eyesun preloaded ject's latest addition to the PRELOADED JECT family is the PRELOADED JECT SCREW injection system. This is a single-use screw-type injector with a new design plunger and is available for incisions of 2.2 mm to 3.2 mm and it can be used for Hydrophobic IOLs as well

With a further enhancement of the PRELOADED JECT Injection System, we introduce the newly developed loading chamber which includes a supreme technology for backloading any type of hydrophobic lens.

	Size 2.2 mm	Size 2.8 mm	Size 3.2 mm
Hydrophobic power	-5 to 22	-5 to 25	-5 to 34

Eye Spear Sponge

Soft absorbent & highly retentive polyvinyl alcohol foam:

designed for ophthalmic surgery

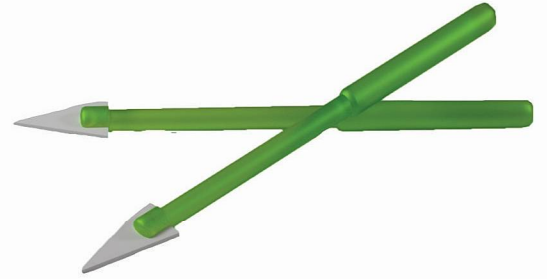

Lint and Fiber-free

Rapid diffuse fluid absorption

Sterilized by gamma radiation

Packaging :

5 pcs / foil & 2 foils /pack

Iris Retractors / Iris Hooks

Flexible Hooks used to increase pupillary diameter during surgery . The attached silicon stopper allows better grip and easy adjustment of pupile size .

provided in a sterile pack of 5 pcs

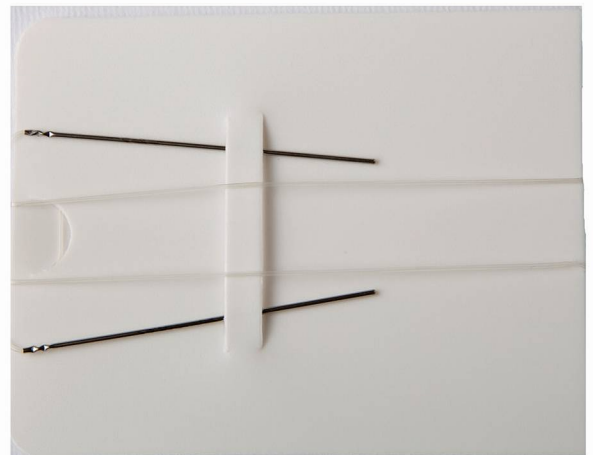

DCR Badkin Tube

DCR Badkin design

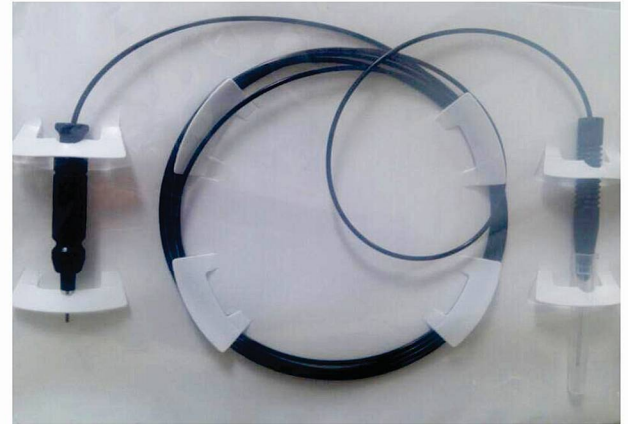

mini lacrymal probes attached to silicon tube

Sterile

Endo illumination Probe

Used in vitrectomy Surgery
20 & 23 gauges
Light Pipe (Standard) - Wide
Pipe - Chandelier
High quality ; 10 / BOX
Sterile : EO

PFCL (Decaline)

Perfluorodecaline fluide
Used for vitrectomy surgery
High quality
7 ml ; Strile

Sf6 Gas

Sulfur Hexafluoride 99.99%
Medical gas
Used for Vitrectomy surgery
Capacity : 50 cc
Strile : EO

Brain PAD

Designed for neurosurgery
lint and Fiber free
Rapid diffuse fluid absorption
Sterilized by ETO

Packaging :
10 pcs / bag

Silicon Oil Injector

Used for silicon oil syringe
injection in vitrectomy surgery

Vitrectomy Lenses

Contains of 3 Lens
(peripheral, regular - wide angle)
+ 1 stainless steel Ring

Factory :

Favaran 73 , Noavary 7 alley ,
Pardis Technology Park (Iran Silicon Vally)
Tehran , Iran .
Tel : +98 21 76250851

Office :

Unit 12 , Floor 3 ,No 23 , Parichehr 1 alley ,
Rodaki Street , Tehran , Iran
Tel : +98 21 66840266
